EWS

From HackTheIBus

EWS is an abbrevation for the german word "**E**lektronische **W**egfahr**S**perre" which means electronic immobiliser.

When key is inserted into the ignition lock these messages are sent

44 05 BF 74 04 xx CS // in
Where "xx" means the number of the key inserted (01 for the first key for example)

44 05 BF 74 00 FF 75 // out
